

ShockBox Lockers

Dry area laminate door lockers

Probe

ShockBox lockers

Optional sloping top available. See **page 6**.

Numbering system

Optional number plates will be recessed into door if ordered with lockers.

Hinge securing plate

This strong hinge incorporates an integral securing plate which clamps the door to the hinge giving added security.

180° hinge

Hinges open through a wide 180° for ease of access.

Extensive range of lock options

A range of quality engineered locks available. See **page 4**.

Welded shelf plinth

High security welded compartment divider incorporating internal door stop and sill.

12mm Solid Grade Laminate (SGL) doors

Super strong and stylish doors available in many contemporary colours. See **page 5**.

With durable laminate doors that are less likely to scratch, dent or be damaged, **SHOCKBOX** is suited to dry areas that receive high volumes of traffic and use.

■ Available in a range of colours.

Inset doors

Provide a visual contrast between the door finish and the locker frame.

Overlay doors

Cover the front face of the locker body, creating a wall of colour.

Probe Steel Products are fire tested and approved in line with European Standard - EN 13501-1: 2007 +A1: 2009

All painted components are protected with a powder coating which incorporates ActiveCoat anti-bacterial technology.

ActiveCoat has been tested by an Internationally recognised microbiological testing laboratory for antibacterial performance, against the most widely encountered and problematic organisms including the MRSA Super bug and E-coli. These micro-organisms suffered a 99.9% reduction in population.

Laminate doors are available in a vast range of contemporary colours from leading manufacturer Fundermax. Choose from our Standard Range or specify a laminate to match your architectural design.

Important note regarding locker installations

Wherever possible lockers should be secured to ensure stability. Single lockers should ideally be fixed back to a wall. Runs of lockers should be fixed together side-to-side and either fixed back to a wall or fixed back-to-back to another run of lockers.

The range

Inset doors

Height - 1800mm*	
Width mm	Depth mm
300	380
300	450
380	380
380	450

Overlay doors

Height - 1800mm*	
Width mm	Depth mm
300	392
300	462
380	392
380	462

* Height rises with sloping top

End panels to match the doors

End panels can be manufactured to add on to the end of locker runs or to the side of each individual locker if required.

Dry Area lock options

*Included in locker price. Request lock type at time of ordering.

Type A – Probe cam lock*

Even the standard lock has a micro sprung 10 disc lock featuring a massive 2000 serial combinations - all exclusive to Whittan. Two keys are included with each standard lock.

Type B – Hasp & staple*

Attractive design allowing easy use of padlock. Transfers responsibility for locking to the user. The user requires a padlock (not supplied) with a shackle diameter of 7mm.

Type P – Re-programmable combination lock

User Re-programmable

An effective 4 digit code combination lock with 10,000 possible combinations, making losing keys a thing of the past.

Suitable for multi user applications. Master override key sold separately.

Type SPU - Public

Type SPR - Private

Public multi-user auto scramble combination lock

Automatically scrambles to 0000 when opened. Has 999 highly secure combinations available - no batteries needed. It has a metal matte black shell and has a master key override (supplied separately) for code finding and lock resetting.

Type L – Digital combination lock 40,000 combinations

Simple to program battery operated lock which can last up to 50,000 operations before needing changing. Emergency access using service key. Single user supplied as standard but multi-user option is available (specify when ordering)

Type N – Nimbus RFID lock

The Nimbus RFID digital lock provides contactless locking and is compatible with RFID standards and incorporates a membrane touchpad for ease of programming. The keypad can also be used to override the lock when required.

Type H (£1) – Dual coin/token return/retain

These locks are available with coin denominations £/€ or tokens, for either return or retain.

Laminate door colour options

Create a storage solution that closely matches your branding or blends subtly into the background with a range of coloured door options to choose from.

Choose from our Standard range or specify a laminate to match your architectural design.

Solid grade laminate with fire classification available at additional cost.

Please ask us for further information on fire classifications and applications.

SHOCKBOX stock 12mm SGL SOLID COLOUR finishes - Choice of Silver Grey, White or Black painted bodies

SHOCKBOX additional door colour 12mm SGL SOLID COLOUR finishes, available on an extended lead time.

SHOCKBOX stock 12mm SGL TEXTURED finishes - Choice of Silver Grey, White or Black painted bodies

SHOCKBOX additional 12mm SGL TEXTURED finishes, available on an extended lead time.

Please note that due to printing restrictions colours represented may differ from original product. We recommend you request a colour swatch before ordering.

Accessories and nesting

Accessories

Sloping top height	
Locker depth	Additional height
380	158
450	187

Sloping tops are essential in hygiene sensitive locations (such as hospitals and the food industry). The slope prevents items and litter being left on locker tops and makes cleaning easier. Sloping Tops have a 22° upward slope from front to back which will add height to your locker. This varies according to the locker depth.

Lockers are often used in areas where floors need frequent cleaning. Locker stands provide maximum floor access raising lockers 150mm off the floor.

Two hardwood slats and metal framework form a bench seat in front of the locker, allowing full access to the locker.

Units are 400mm high and come complete with adjustable feet.

Also available;

- Double coat hook
- Hanging rail
- Captive coat hanger
